PROFESSIONAL SUMMARY

Full stack developer with MERN internship experience and a deployed TypeScript SaaS application. Builds React interfaces, Node.js APIs and PostgreSQL/Redis workflows with automated testing, CI/CD and Python automation.

TECHNICAL SKILLS

Languages: JavaScript ES6+, TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux, Context API, Vite

Backend and data: Node.js, Express.js, Fastify, REST APIs, MongoDB, PostgreSQL, Prisma, MySQL, Redis, BullMQ

Tools and testing: Git, GitHub Actions, Docker, Playwright, Vitest, Postman, Power BI, Excel

SELECTED PROJECTS

EntitlementCI | SaaS Entitlement Verification Sep 2026 to Present

Live application | Source code

- Built a React and Fastify platform with Prisma to detect subscription access mismatches and manage incident lifecycles.
- Developed a TypeScript Node SDK and Redis/BullMQ pipeline with PostgreSQL transactions, idempotent processing and stale event handling.
- Enforced tenant isolation, role based access and signed webhook verification; deployed the API, dashboard and worker on Northflank with Supabase PostgreSQL.
- Configured GitHub Actions CI and Playwright tests; passed 12 live integration checks covering incident detection, regression, secure sessions and organization isolation.

Developer Portfolio | Next.js and WebGL2 | Live site

- Built a statically exported Next.js site with WebGL2 visuals, responsive layouts, motion controls and resume downloads; deployed on Cloudflare Pages.

Automated Video Production Pipeline | Python and FFmpeg

- Built a JSON configured Python/FFmpeg pipeline for video rendering, audio mastering and forced alignment of subtitles on Kaggle GPU infrastructure.

PROFESSIONAL EXPERIENCE

Software Engineer Intern | HAEGL Technologies, Hubli Sep 2025 to Jun 2026

- Developed React interfaces and MERN features with REST API integration, authentication, error handling and Redux/Context API state management.
- Built reusable Tailwind CSS and Bootstrap components; debugged frontend/backend integration and validated API responses with Postman.

Junior Software Engineer | iTriangle Infotech, Bengaluru Jun 2025 to Aug 2025

- Built Power BI dashboards for end of line testing and MIS using MySQL, Python/Pandas and DAX; validated data and investigated reporting discrepancies.

Data Analyst Intern | AI Variant Aug 2023 to May 2024

- Used SQL, Excel, Power BI and Tableau for data preparation, analysis and dashboard reporting.

EDUCATION AND CERTIFICATIONS

Master of Computer Applications | Full Stack Development In progress

Jain University | Online program; Semesters I and II completed

ExcelR certifications: Data Analytics, Data Science and Core Python Programming
