# Chaitanyachidambar S. Kulkarni

## ENTRY LEVEL AML / KYC / FRAUD OPERATIONS

Bengaluru, India | +91 9591454650 | chaitanyarocks.kulkarni@gmail.com

Available immediately | Open to office work and rotational shifts

LinkedIn | AML portfolio | Case review | TraceCase source

## PROFILE

B.Com graduate pursuing an online MCA, seeking an entry level role in Anti-Money Laundering (AML), Know Your Customer (KYC) or fraud operations. Brings experience in data validation, SQL analysis, Excel reporting and operational dashboards. Built TraceCase, an independent educational project using fictional customer cases to practise transaction review, evidence assessment and case documentation.

## EDUCATION

**Bachelor of Commerce** | CSI College of Commerce, Dharwad | 2022

**Master of Computer Applications** | JAIN University, Online | 2025 to 2027
Pursuing, Semester 3. Available for full time employment.

## RELEVANT SKILLS

**AML project practice:** Customer profile and transaction review, evidence verification, identification of information gaps, consideration of alternative explanations, review of assisted findings and case documentation.

**Data and reporting:** Excel, SQL/MySQL, data cleaning and validation, MIS reporting, Power BI, Python/Pandas.

## AML LEARNING PROJECT

### TraceCase | AML Investigation Workbench | October 2026 to present

Independent, AI-assisted educational project with two fictional customer cases.

- Brought customer profiles, transaction records and supporting documents together in a structured review workflow.
- Compared unusual credits, payer patterns and closely following debits with customer context, supporting records and unresolved information gaps.
- Linked findings to evidence and required review of assisted claims before recording a training decision and exporting an investigation report.

## EXPERIENCE

### HAEGL Technologies | Software Engineer Intern | Sep 2025 to Jul 2026

Validated REST API responses, integrated web portal features and investigated application issues. Worked on authentication and reusable interfaces.

### iTriangle Infotech | Junior Software Engineer | Jun 2025 to Jul 2025

Built Power BI and MIS dashboards for operational and end of line testing reports. Extracted MySQL data and prepared datasets using Python/Pandas and DAX.

### AI Variant | Data Scientist Intern | Jan 2025 to Apr 2025

Used Python and SQL for exploratory data analysis during a data science internship.

### AI Variant | Data Analyst Intern | Nov 2023 to May 2024

Cleaned datasets in Excel, used MySQL joins and aggregations for reporting, and built Power BI dashboards and Tableau visualisations.

## LANGUAGES

English, Hindi and Kannada.
